recorded as father of John D'Silva, Blanche D'Silva and Bertha D'Silva in their marriage records.

6 of his children are named in Nazareth's will dated 3 July 1879. There is no mention of his wife in this will, presumably she died before Nazareth wrote it. Also there maybe other children who did not survive him.

Is this the same John D'Silva that worked at the Bruce Institute and died in 1892 and who we think may be father, brother or cousin of Francis Osmund D'Silva ?????
 If so, this would explain the DNA match between a descendant of John Eric Anthony D'Silva and a descendant of Francis Osmund D'Silva.
